Encouragements

Imran Matanat Hussein has taken great pains in compiling his family's genealogy into an impressive hefty book. His resourcefulness, perseverance and discipline are very commendable. I feel privileged to receive a copy and asked to write my comments on it. I am not related to him by blood but our families have been like close relatives since my childhood in Lucknow. The two families had much in common.

Imran's aunt, Azeem Fatima was my classmate and closest friend since grade two in Karamat Hussein Muslim Girls' College, Lucknow. Imran is the son of Azeem's older sister, Tazeem Fatima, our "Tazeem Baji." She was much older than us and so very intellectual that her discourses used to go over our heads. I used to be simply awed by her. No wonder, she produced a brilliant son like Imran. Both our families had the tradition of higher education among women as well, for a long time. The most well-known woman litterateur in Imran's family was (Late) Qirat-u-I Ain Haider, (Ainee Aapa) and in my family, (Late) Safia Janisar "Akhtar", ("Manjhli phuphi") who was the first woman from our ancestral Qasba, Rudauli Shareef, (near Lucknow) who went to Aligarh University in late 1930s and later, served on its faculty as well. Unfortunately, she died young at age thirty-seven only. She left behind two brilliant sons, Javed Akhtar and Dr. Salman Akhtar.

INTRODUCTION

Genealogy can certainly mean different things to different people. However, there are some common threads that all people share when looking towards the past. Genealogy is not a new activity and it is not isolated to any one culture. It bridges across all cultures and all eras. At its root, genealogy satisfies basic human curiosity.

Some people have very specific reasons for tracing their family tree. Others jump into family history research without giving it much thought. People have a basic desire to know where they came from and how they got to where they are today. Thus, in some ways there is a philosophical connection between genealogy and religion. Genealogy is history on a personal scale.

Knowing why people research their ancestors can be a source of inspiration and support for genealogists. Family trees can take on more importance as things change. Establishing lineage can sometimes impact inheritance, which can be fractured or changed by war, disaster or disease. Family trees establish rights of inheritance and rights to property, and they can be critical to proving or disproving important questions of law. In the developed countries, family trees also help medical professionals answer questions. As genetics get more sophisticated, researchers, epidemiologists and scientists of all kinds may find valuable clues to curing disease embedded in family trees.

Most people that research their families often start with the parents or grandparents and begin to move backwards through time. They often forget that one of the most important things in a family history is to document and connect with the people that are alive right now.

How did I develop a keen interest in Genealogy?

The answer is simple. During my early childhood, I used to observe my father (late Shujaat Husain) organize his books and important documents. He never allowed his children to mess up with the important documents but never refused any possible help with the books. Such occasions were very rare though. I always tried to flip the pages of my father's books whenever I had an access to them. On one such occasion, I came across a book in a green binder. It was written in Urdu but the main content was names and some places organized in a chronological sequence. Some of these names and places sounded familiar as my grandparents mentioned them very often. I asked my father about some details about this book and he explained that this is our first ever printed family tree. I was able to locate my father's name but many important family members including all females were missing. My father could not elaborate this matter but he explained that the compilers had no information about each and every person.

Many decades later, I decided to computerize the family tree records but my mother informed that one of our family members, senior Khurshid Alim Zaidi has already initiated this uphill task and that's how I contacted my mentor who very kindly provided me the software and data to manipulate the family tree records systematically. For more than twenty years, the two of us are working in close collaboration and exchange our updates very frequently.

What is my story?

I am a direct descendant of the prophet of Islam. My ancestors migrated from Arabia to central Asia, India and Pakistan. Syed Kamaluddin Tirmizi was my first ancestor who arrived in Kaithal, India in the year 588 A.H.(1192 A.D.) from Tirmiz in Uzbekistan. Later on, one of his descendants Syed Hasan Nehtori moved to Nehtaur, India. Nehtaur is located at 29.33°N 78.38°E. It is situated at an altitude of 728 meters above sea level.

Syed Kamaluddin Tirmizi, r.a. had migrated to India for preaching Islam in the Subcontinent, as had many other Aulias done at that time, such as Khawaja Moinuddin Chisti Gharibnawaz Aulia, r.a. At that time, Shahabuddin Ghouri was preparing for his First raid on India. When Shahabuddin learnt about Kamaluddin Tirmizi's, r.a. plans of also going to India, he offered him to travel under his protection. Kamaluddin Tirmizi r.a., however declined the offer, saying that "Our missions are different. You are going there to conquer land; and my intentions are to propagate the teaching of Islam to the inhabitants". Kamaluddin Tirmizi, however directed one of his sons, Mir Malik Syed Ibrahim Shah to join Shahabuddin Ghori. Shahabuddin Ghori was defeated by the then ruler of Delhi, Prithivi Raj Chauhan. Although his forces captured the Hansi Fort (100 miles West of Panipat and about 130 miles West of Delhi on Delhi-Hisar-Sirsa Road), however Mir Malik Syed Ibrahim Shah attained Shahadat, and was buried within the Fort premises (South West area), where, reportedly, it still exists and is known as Nishanchi's Mazar. Shahabuddin again returned to India in 1192 after preparing for one year and defeated Prithivi Raj Chauhan in the second battle of Tarain and, subsequently, became the first Muslim ruler to conquer Delhi and establish a Muslim rule in India. He was very happy to find Kamaluddin r.a. well settled and in his honour gave him land in Sialgarh in Karnal. Subsequently Kamaluddin Tirmizi r.a. settled down in Kaithal, where he is buried. Most sons of Kamaluddin r.a. spread themselves throughout the length and breadth of India on preaching mission, as follows:

1. Mir Syed Qutubuddin	Kaithal
2. Mir Syed Hissamuddin	Kaithal
3. Mir Syed Mugheethuddin	Unknown
4. Mir Syed Jalaluddin Ghazi	Rohailkhand
5. Mir Syed Nizamuddin	Unknown
6. Mir Malik Syed Ibrahim Shah	With Shahabuddin Ghouri
7. Mir Syed Saeeduddin	Batan, Madras
8. Mir Syed Rukunuddin	Ahmadabad, Gujrat
9. Mir Syed Aleemuddin	Qannouj
10. Mir Syed Naseeruddin	Tir Hat, Sylhet
11. Mir Syed Azizuddin	Nehtor

Subsequently the ruler made Syed Jalaluddin Ghazi (the eldest son), or one of his descendants, who were settled in Rohailkhand, a Chaar-Hazari (In those days the King kept a nominal army. Suitable individuals were awarded land – usually consisting of a number of villages – and they were required to provide a designated number of fully equipped soldiers – usually under the individual's command – whenever the King required. Such nominees were known as Seh-Hazari (3000), Char-Hazari (4000), Panj-Hazari (5000).....Das-Hazari (10000), etc). One of the descendants of Syed Jalaluddin Ghazi, Syed Ziauddin (also known as Syed Haya Shaheed) –also a Chaar-Hazari, was killed while on a mission to quell Rohilla uprising. He was buried in Doaba, Allahbad. His mazar is known as Mazar-e-Haya Shaheed, where, reportedly, people bring their sick, particularly children for healing and return satisfied. Son of Ziauddin, Syed Hasan, relinquished the Char-Hazari title/commitment and shifted to and settled down permanently in Mohalla Teergran of Nehtor. Though Syeds lived in Nehtor before his arrival, but most of the current Saadaat-e-Nehtor consists of his descendant. He is popularly referred to as Syed Hasan Nehtori.

Having extensively researched my roots, I am presenting the details of the ascendants and descendants of Syed Hasan Nehtori in the following pages. This genealogical report also includes another branch of Zaidi-Syeds known as Wastis. Their ancestor Abu al-Farah Wasti was also a descendant of Hazrat Zaid Shaheed like Kamaluddin Tirmizi. He arrived in India from Wasit, Iraq and his descendants settled in Nagina, Bijnaur. These two branches of Zaidi Syeds intermarried very frequently and all such known relationships are also included in this research work. This edition also includes the Genealogies of Wastis, Gardezis, Rasoolgars, Rizvis, Taqvis and Naqvis.

A few words about my parents

I am the eldest son of Shujaat Husain(late) and Taazim Fatima. Both of my parents had a teaching background and served many educational institutions. My father expired in 2013 at our residential place in Nazimabad, Karachi but my mother still lives there with my two younger brothers.

My father achieved his BSc and BT degrees from Aligarh Muslim University and my mother graduated from Lucknow University. Both of my parents produced some very illustrious students. One of my father's students was late Dr. Muhammad Ali Shah, Pride of performance, Sitara Imtiaz, who passed away in 2014. He had mentioned my father in his book 'The Legend unfolds' which was also launched in Urdu as 'کامیابیوں کا سفر'. Here is a picture of Dr. Muhammad Ali Shah with my father at our residence in Karachi.

Dr. Syed Mohammad Ali Shah with his Government School Teacher Shujaat Hussain.

In 1961, during the summer vacation in school, his father insisted that instead of wasting time, his son should take private tuitions. It was decided that Dr Shah would take tuitions from Mr. Shujaat Hussain for 2 months. Shujat Sahib used to live near Jinnah College, Nazimabad No.5. Those two months were the times which changed the course of Dr Mohammad Ali Shah's life.

Initially, he was just an average student, more interested in sports activities than studies. It was because of Mr. Shujaat Hussain that even before commencement of the school session for the ninth class, Dr Shah had completed his studies for three major subjects: Biology, Physics and Chemistry, which gave him an edge over the other students, and resulted in getting first position in Matriculation exam. The grateful Doctor says "I am

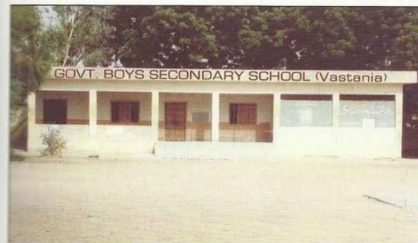

30

very thankful to Mr. Shujaat Husain. If he had not taught me the way he did, during those two months, I would probably never have become a doctor."

Mr. Shujaat Husain has lived all his life in the same modest house near Jinnah College where Dr Shah used to go for tuitions in the year 1960. Mr. Ainuddin, was Sports teacher at the Government Boys Secondary School, Nazimabad Number 2. Even today, when Dr Mohammad Ali Shah meets him, he recalls Mr. Ainuddin as a very hard working teacher who was respected by all his students.

DAMAGING RULES OF SECONDARY EDUCATION BOARD

On way towards Matriculation, Dr Mohammad Ali Shah lost two precious years due to the negligence of the Senior Officers of the Board of Secondary Education and the strange eligibility rules.

Government Wastania High School, Nazimabad No.4, Karachi.

My mother also tutored Taha Turrabi, a son of Allama Rasheed Turabi.

Both of my parents had a rich collection of old family pictures and I will be sharing some selections in the next sections.

CHEMICAL LABORATORIES
M. A. O. COLLEGE,
ALIGARH.

3 Feb 1915

Muhammad Ibn-e-Abbas was a student of my B.Sc. class during the session 1914-15. I have found him a student of intelligence and industry; he was successful in his class examinations and shows considerable promise.

Though somewhat independent in his views he is amenable to discipline and courteous in his manners.

I wish him success in whatever work he takes up.

Hans Kroll,
Professor of Chemistry-

19/3/14.

I have had Ibn-e-Abbas, Student of B.Sc., on my side for the last five months; I have also seen him in my English class. He has impressed me as a thoroughly conscientious and methodical student who could be trusted to carry out intelligently any work given to him.

He is of quiet habit and has done a good deal on the side. His manner is good. I have pleasure in recommending him.

G. H. Ferguson B.
Professor

PHYSICAL LABORATORY,
M. A. O. COLLEGE,
ALIGARH.
19.3.14.

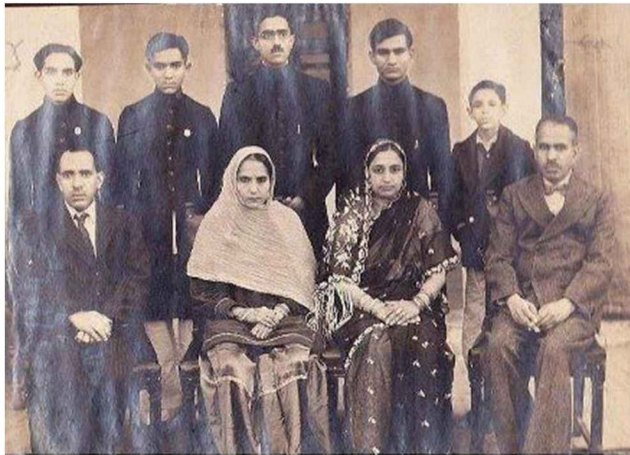

Syed Ibn-e-Abbas has been my student for the last two years and has attended my class in Physics & gone through the Practical Course given in the Phys. Laboratory.

I found him intelligent, hard-working & painstaking. His conduct in the class was always satisfactory and I believe he possesses an excellent character.

I wish him every success in his future career and hope that he will soon find a suitable appointment with the Government or elsewhere.

Wahid Muhammad

My camp life

After graduation, I joined Sui Southern Gas Company Ltd. in 1976, a prestigious organization involved in Natural Gas Transmission, Purification, Compression and Distribution. I was posted in the Projects and Construction Division where I progressed to senior positions up to the level of a Chief Engineer. In the year 1997, I migrated to Canada and sadly resigned from this position. I still cherish fond memories during service with SSGC Ltd. These pictures depict my camp life. CONTENTS

- 1. PATERNAL ANCESTRY**
- 2. MATERNAL ANCESTRY**
- 3. DESCENDANTS**
- 4. SOURCES**

The Genealogy Section has been divided into many sections like the paternal/maternal ancestors and descendants of Hazrat Hussain ibn Ali ibn Abi Talib. All Historical references are included in the Sources section.

For each section, all continuation marks are enclosed in parentheses() wherever necessary. Duplication of people due to cousin marriages has been avoided. There are many incomplete genealogies due to Intermarriages within various Syed branches. For a time being, the only continuous one has been listed here.

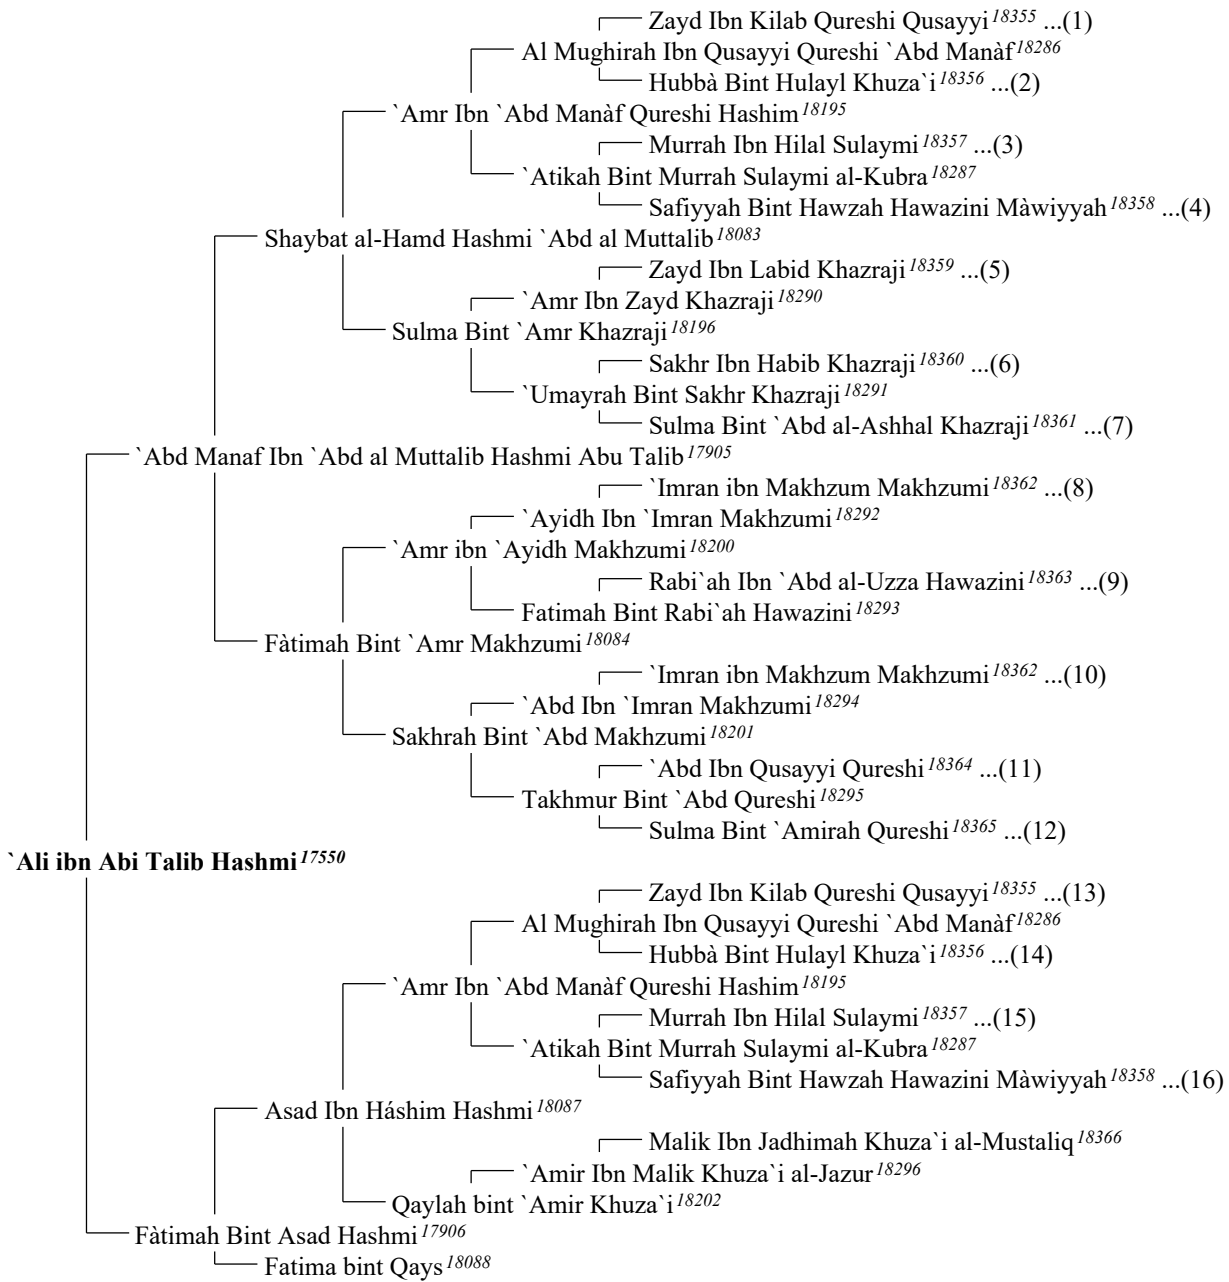

The readers are requested to locate people in the Sections 1-3 by flipping the pages. Since the database contains more than 20,000 persons, a page wise index could not be generated. I also intend to compile the complete genealogy section in a different book later.

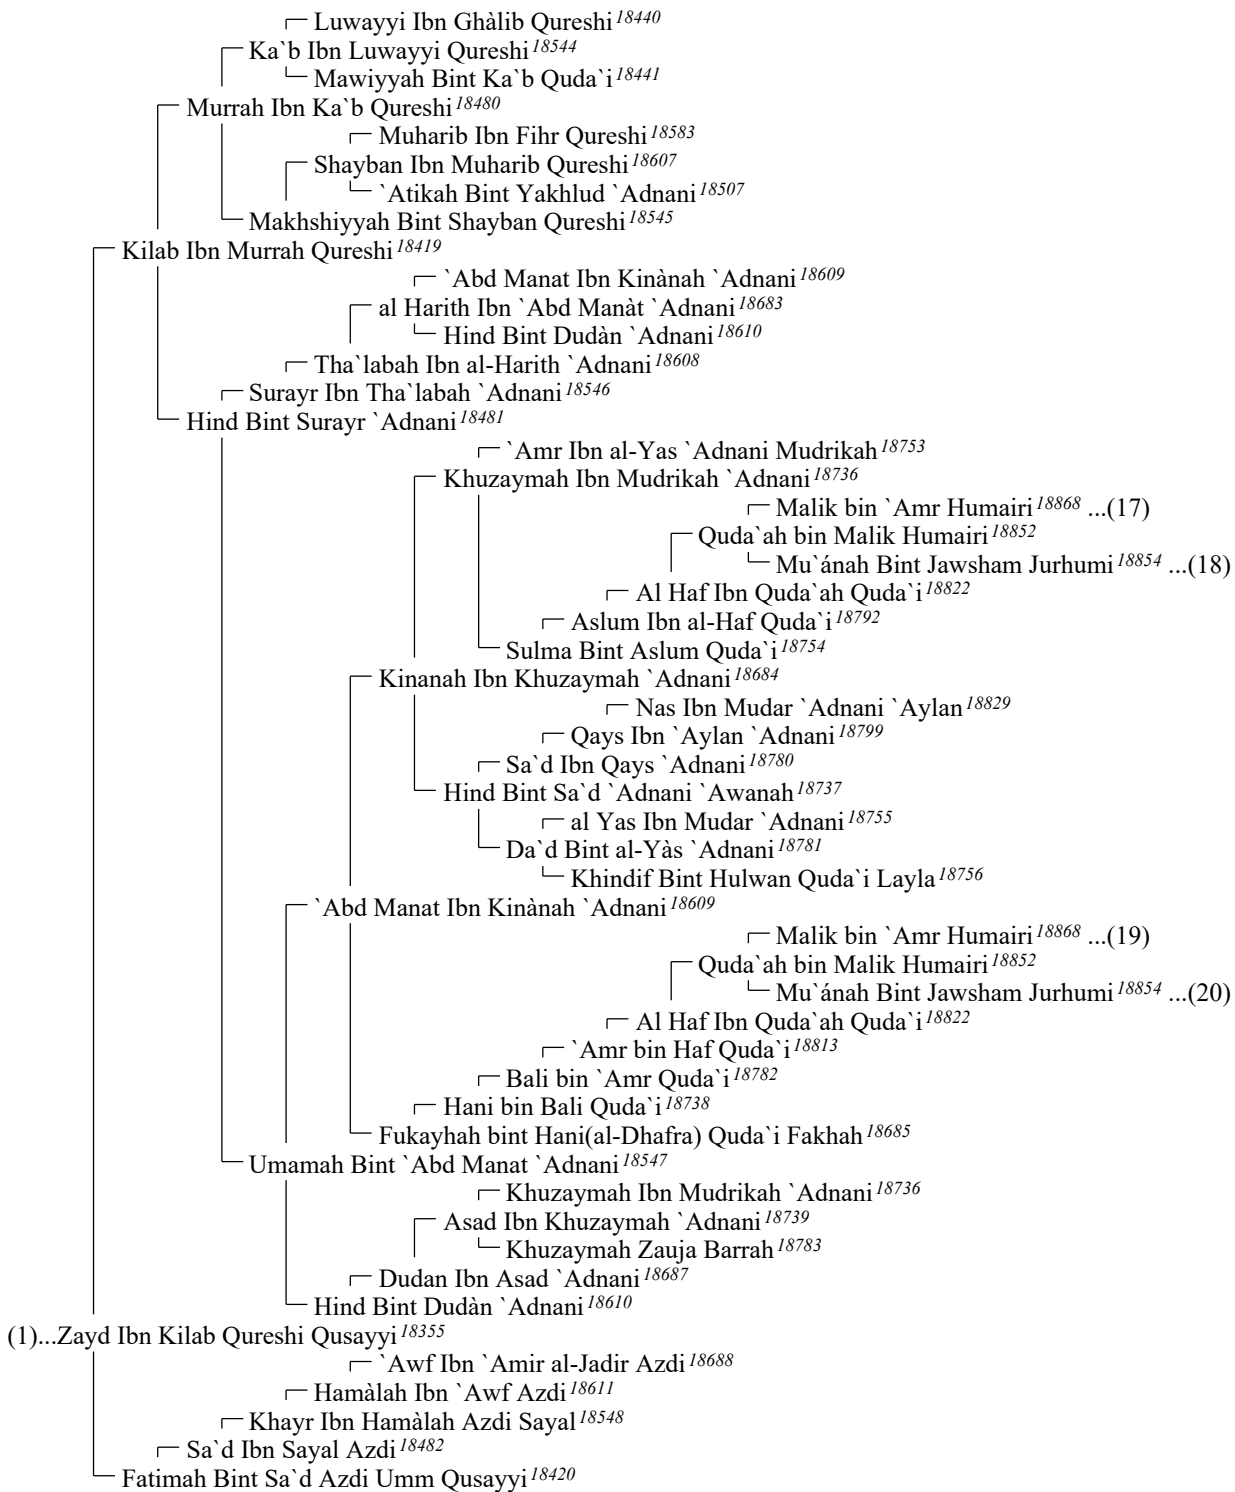

The complete genealogy section is also available online in a private website. The viewers can customize their preferences in this website. Please contact me directly to access this website.

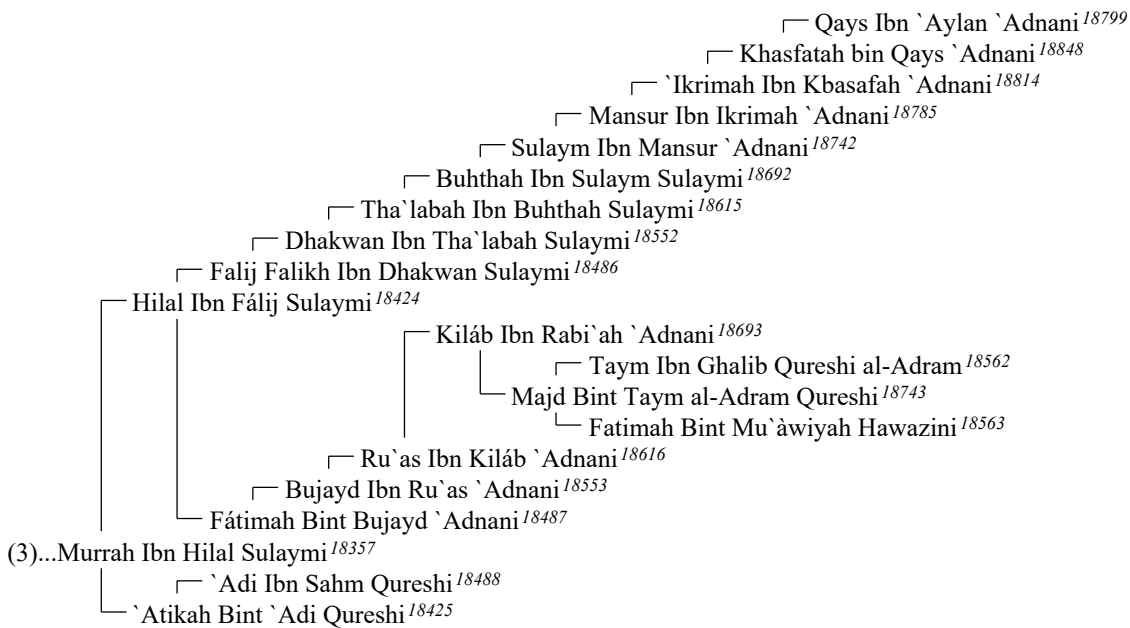

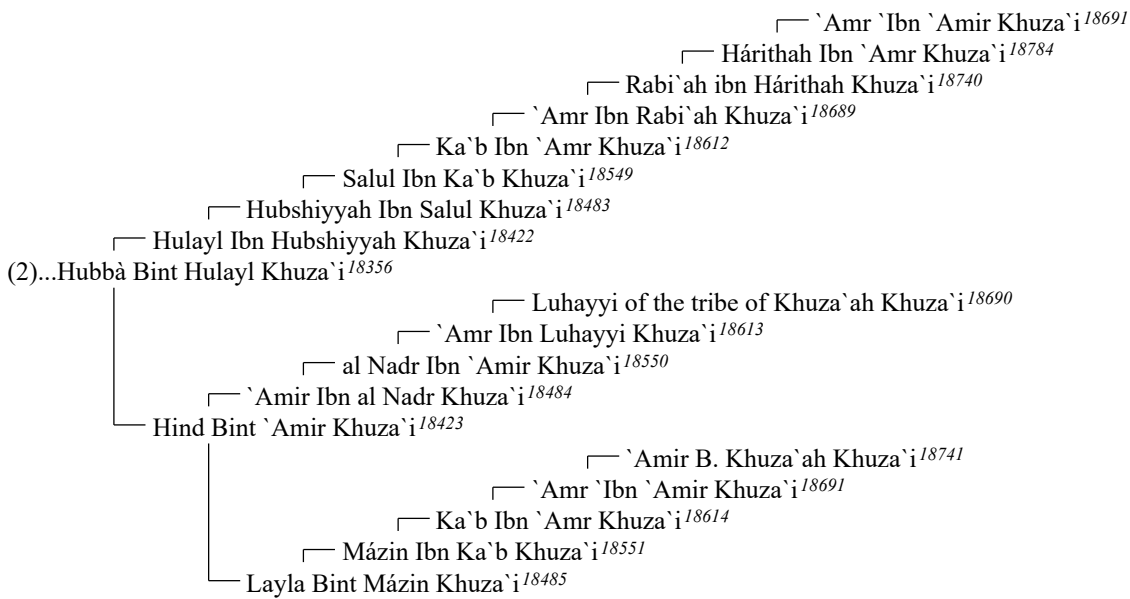

Here are two examples on how to use the genealogical section. The first one relates to the Paternal History section. on the first page in this section, you will find 16 continuation marks enclosed in parentheses against various ancestors of Hazrat Hussain ibn Ali ibn Abi Talib. The first continuation mark regarding Zayd Ibn Kilab Qureshi Qusayyi can be easily located in the next page but the other continuation marks can be easily found by flipping the subsequent pages. Please remember that all continuation marks are numbered but the numbering sequence varies for different sections.

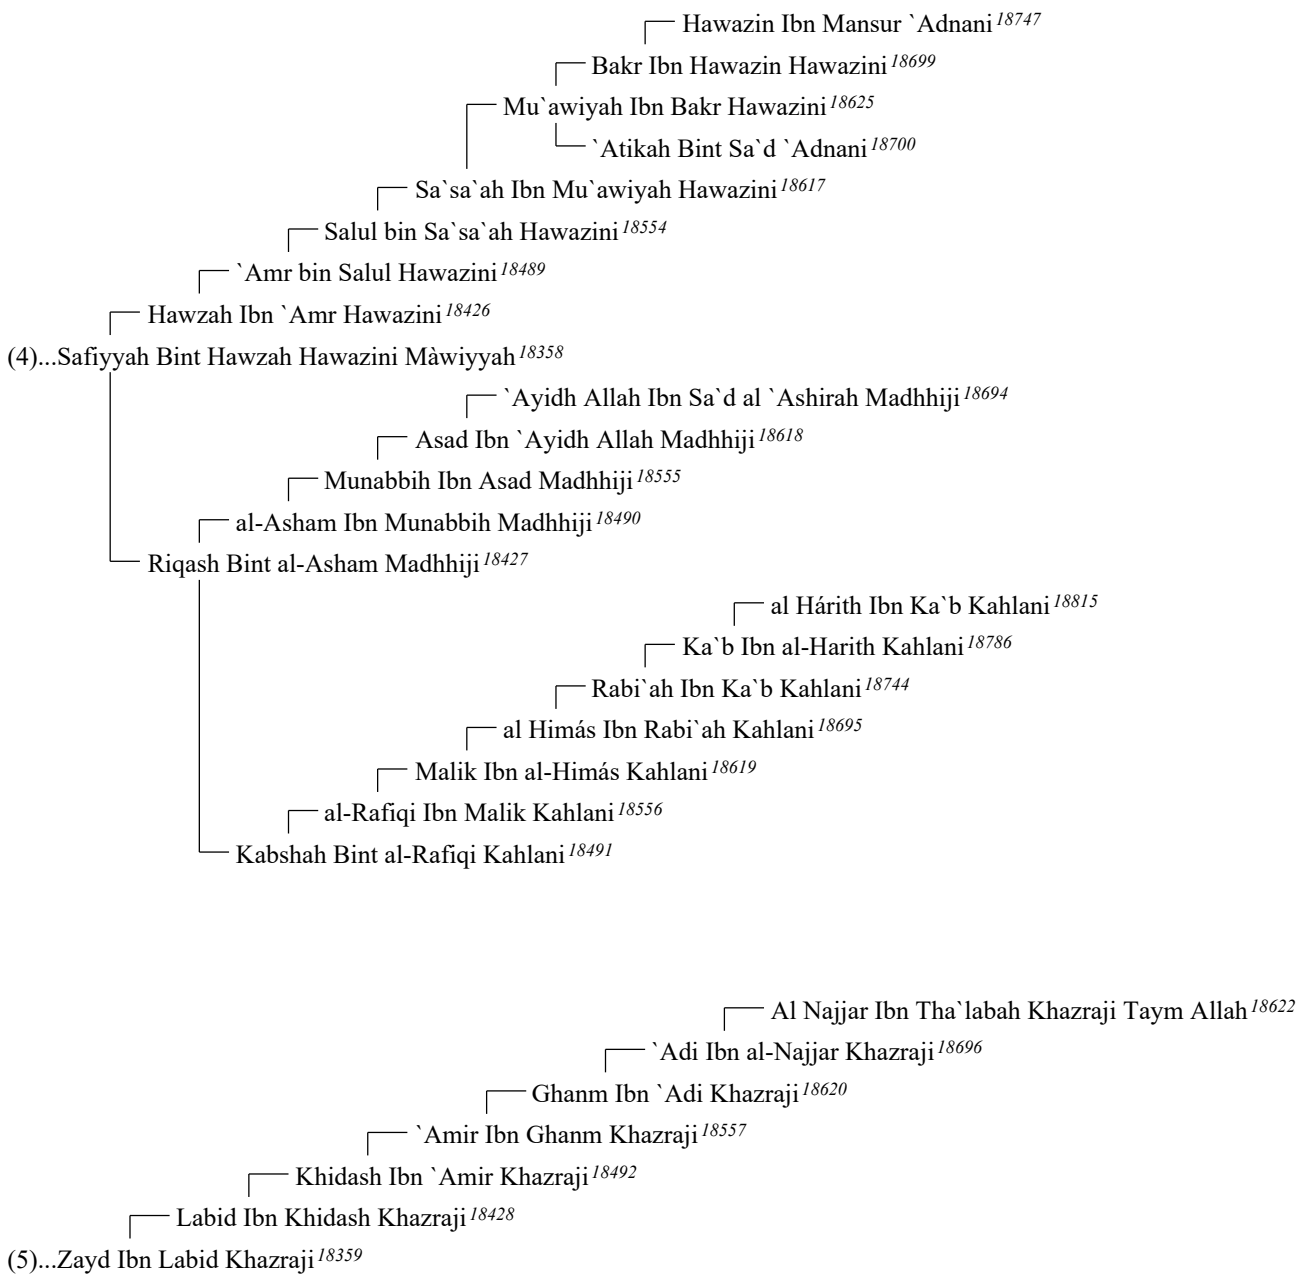

On page 40, you can find the descendants of Hazrat Hussain ibn Ali ibn Abi Talib. On this page, you will find 16 continuation marks. The first continuation mark regarding 'Abdullah bin Hassan Abidi is also located on page 40 but the other continuation marks can be found in the subsequent pages. Please note that the numbering sequence for these continuation marks starts from 1 again.

Maps Section

The Zaidi Syeds arrived in India from at least two distinct locations. Tirmiz(Uzbekistan) to Nehtaur and Wasit(Iraq) to Nagina. The final destination points are located in District Bijnaur, Uttar Pradesh, India. These two branches of Zaidi Syeds were descendants of Hazrat Husain bin Zayd bin Ali bin Husain bin Ali bin Abi Talib. According to the legend, Hazrat bin Zayd bin Ali bin Husain bin Abi Talib was martyred in Kufa, Iraq. Some of the descendants of Hazrat Husain bin Zayd moved to Wasit, Iraq. These Zaidi Syeds were the ancestors of Wasti Syeds of Nagina. Interestingly, some of the descendants of Hazrat Husain bin Zayd also migrated to Tirmiz via Tehran, Iran. One of them was Tahir bin Muhammad who is buried in Tehran, Iran. This fact suggests that some of Zaidi Syeds migrated to Tirmiz via Tehran, Iran.

These Zaidi Syeds from Wasit and Tirmiz intermarried very frequently and disseminated in the entire country. In this section, I am including important maps/ travel routes. The entire map of district Bijnaur is given below:

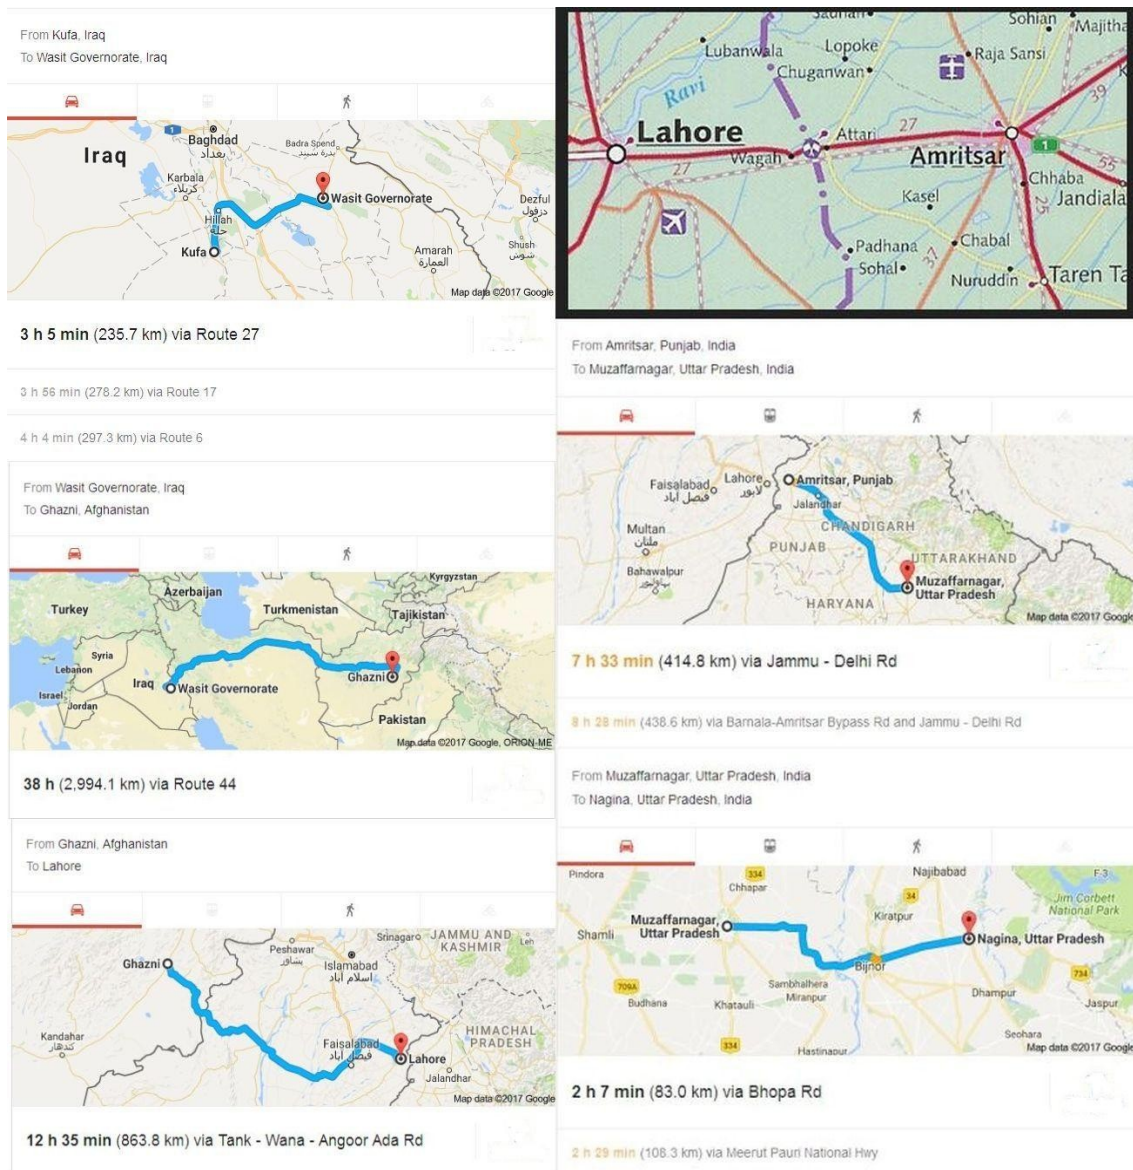

There were many stopovers between Kufa(Iraq) and Nehtaur(India). This is a possible route from Kufa(Iraq) to Nehtaur(India) via . Tirmiz(Uzbekistan). The actual travel durations were much longer in 12th century AD.

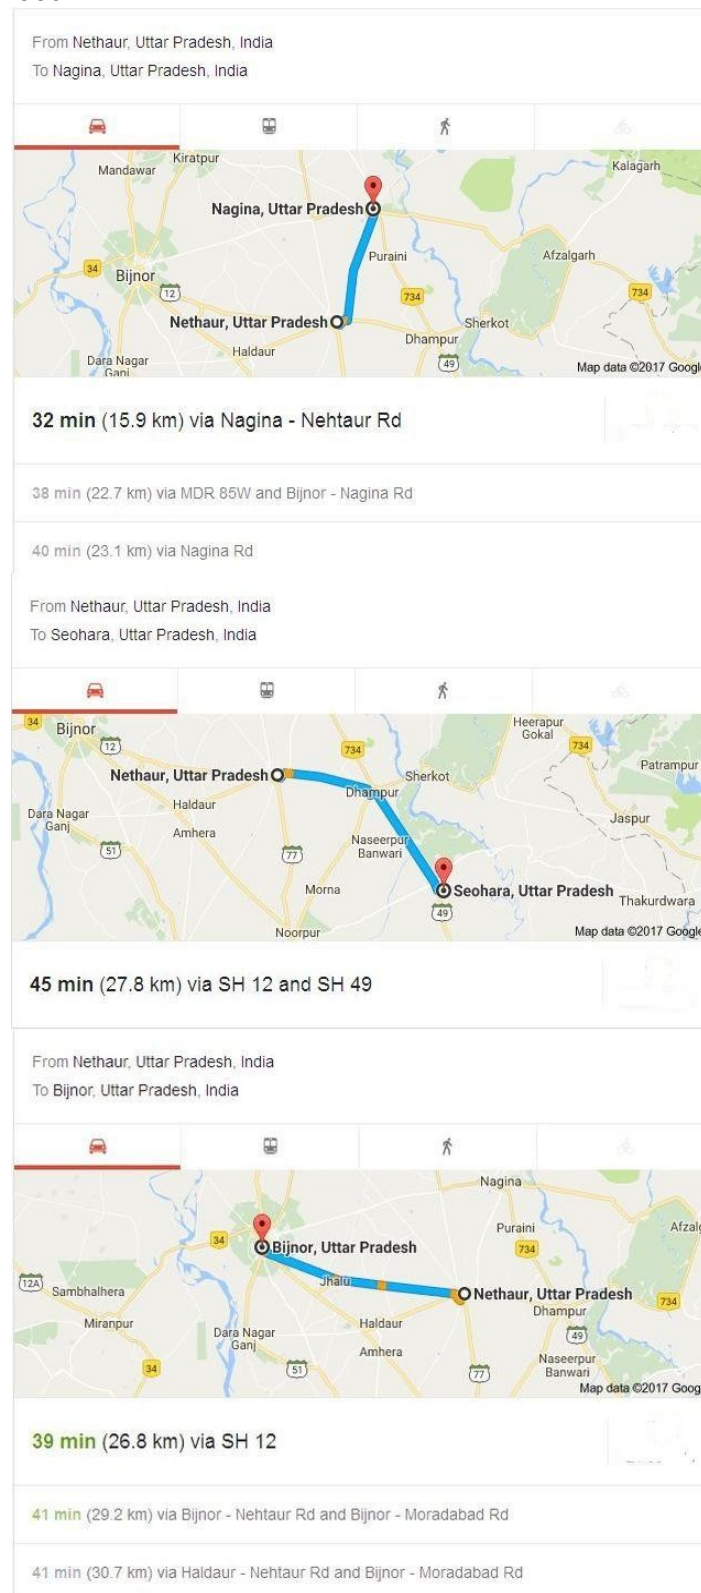

(b)

This is a possible route from Kufa(Iraq) to Nagina(India) via Wasit(Iraq). The actual travel durations were much longer in 12th century AD.

(c)

It is interesting to note that Nehtaur is within very close proximity with the Major towns like Bijnor, Nagina and Seohara. The Zaidi Syed clan moved to these major places very frequently. They also researched on their roots but no comprehensive publication available regarding the assimilation of different family trees. This map indicates Nehtaur and its neighborhood.

Overview

This book comprises two volumes. The first volume in Urdu contains the introductory pages and a personalities section of the Bijnauri Syeds. The main content of this volume contains a photo gallery and the genealogy pages.

Goals

1. To describe the family background and culture of the Bijnauri Syeds
2. To identify relationships of various persons in this family lineage.
3. To create family integration

Specifications

Syeds of Bijnaur belong to the Husaini branch. The ancestor of all Husaini Syeds is Hazrat Husain bin Ali bin Abi Talib (RA). Due to this reason, he is the base person in this genealogy report containing all of his known ancestors and descendants. Since the Syeds of Bijnaur inter-married all Muslims in India, many entries are not Syeds at all. This report includes data about more than 19000 individuals.

Previous attempts

All previous attempts in Persian and Urdu have become obsolete now but they are worth mentioning.

I. Ancient but unpublished Persian manuscript

This huge collection of seven massive volumes about the Syeds of Bijnaur was compiled by late Abid Husain. Unfortunately, it could not be accessed by most of the scholars and it was never printed.

II. Syeds of Nehtaur(Shajra-e-Saadaat-e-Nehtaur)

This family tree was compiled by late Hafiz Abdul Rasheed in 1964. He mentioned about 1800 males only according to the information available then.

III. Wasti Syeds of Nagina

Two family trees had been compiled by the Wasti Syeds of Nagina. The first one was compiled by late Abbas Ali bin Sharif Ali but only eighteen pages have been found. The second one was compiled by late Abu Abdullah Muhammad Isma'il but only thirteen pages are available .

IV. Rizvi Syeds of Tarkola

Late Hashim Rizvi's handwritten tree was discovered with some handwritten notes describing the relationships of the Rizvi Syeds with the other branches of Syeds of Bijnaur.

V. Immul Ansaab

This massive book was written by Rizwanuddin Ansari from Bhopal, India. He had provided details about all major Muslim genealogies including Syeds of Nehtaur. There is a close similarity between my entries and the contents of this book.
